

The following table sets forth the denominators of the basic and diluted earnings per share computations:

	Fiscal		
	2012	2011	2010
	(in millions)		
Weighted-average shares outstanding:			
Basic	426	438	453
Dilutive share options and restricted share awards	4	5	4
Diluted	430	443	457
Income (loss) from continuing operations	\$ 4,131	\$ 1,311	\$ (1,002)

Certain share options were not included in the computation of diluted earnings per share because they would have been antidilutive.
